Information: Regarding temporary suspension of product orders

Dear Valued Customers,

We regret to announce that, due to change of the technical standards for aluminum wheels (VIA limited loads), we will temporarily suspend order-taking for the following 4 products as we need to modify their specifications to adapt the change of standards. We will resume accepting orders when the modification is completed. New product numbers will be assigned to the 4 products after the modification although their sizes remain the same.

We will notify restart date of order-taking when it is confirmed.

We apologize to you for any inconveniences caused by the suspension.

Thank you for your understanding.
